Introduction

The urgent need for reliable and sustainable energy has been heightened due to the continuous increase in the nation's population and industrialization. Conventional energy infrastructure has been strained & has resulted into stifled growth. However a solution lies in the potential of solar energy. By harnessing Nigeria's abundant sunlight, we can illuminate homes and businesses, and power a future that is both environmentally conscious and economically vibrant.

Solar Start LTD
Powering the future

About Solar Start

Solar Start curbs the effect of inadequate power supply through the installation of affordable smart solar systems for the everyday earner, so as to reduce the dependency on fossil fuels.

Our Product & Services

**Solar Surveillance CCTV
System**

Solar Street Lights

**10KVA/96Volts Solar
Homes Systems**

Our Product & Services

Deep Cycle Gel Batteries

Solar Racking/Mounting

Our Product & Services

**Solar Start IGBT Pure Sine
Wave Inverter**

**JCO IGBT Inverters(48V/5KVA,
24V/4KVA, 12V/2.5KVA)**

Our Product & Services

Solar Car Garage/Solar Car Port

On-grid Installation

Our Activities So Far
